The use of the system is not possible for people who suffer from an illness or a physical or mental impairment that could pose a risk to their own health or the health of other people when using the Rundlauf-Movie (e.g. people with intervertebral disc damage, epileptics, ...). Persons under the influence of alcohol or drugs or other intoxicating substances may not use the Rundlauf-Movie.
4. During the stay in the area around the Rundlauf-Movie, it is not permitted to carry loose objects such as cameras, mobile phones, bunch of keys, purses, openly worn jewellery, etc., as these can pose a danger to the participants themselves and to other people. 5. Before using the Rundlauf Movie, each participant must take part in a safety briefing. All instructions of the operator must be followed. In the event of violations or violations of the operator's instructions or safety requirements, the participants concerned can be excluded from training on the Rundlauf-Movie.
6. We expressly point out that this piece of sports equipment is a prototype in the testing phase! The mechanical wooden horse 'Movie' has been a proven training device for vaulting for years and has a TÜV certificate of non-objection. The extension of the movie to include a 'cart' moving on a circular path opens up new dimensions in vaulting training. However, this innovation is still in the prototype phase. The Rundlauf-Movie meets the highest standards of safety and accident prevention, but is only being tested and further developed in operation for the time being. The user was made aware of the user manual for the Rundlauf-Movie. The points described there must be observed.
With your signature, you expressly confirm that you have read this information and agree to use it at your own risk.
7. The Pferdesportverein Garching-Alztal e.V. is only liable for personal injury, property damage and financial loss in the context of the use of the Rundlauf-Movie in the event of intent or gross negligence on the part of the operator.
